Saturday was a gala day at Old Wesley Chapel. Ball game and ice cream festival in the afternoon, and the splendid troupe of home talent from Evergreen presented their amusing play to a fair audience. The weather was threatening and kept many away. By accident, notice of the play was kept out of these columns last week

Members of A. B.

Members of the American Bankers Association are protected by a world-wide detective service. Pursuit by this service of criminals who have robbed or defaulted member banks is so relentless that burglars have been known to return stolen money when they learned that the bank robbed was a member of the A. B. A. In one such case the returned money was accompanied by a note in which the burglar asked, "Why didn't you hang your membership sign where I could see it?"

There are, of course, other advantages in A. B. A. membership, but this one should be of interest to our customers and prospective customers

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages and that is catarrh. Catarrh being greatly influenced by constitutional conditions requires constitutional treatment. Hall's Catarrh Medicine is taken internally and acts thru the Blood on the Mucous Surfaces of the System thereby destroying the foundation of the disease, giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in the curative power of Hall's Catarrh Medicine that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

When A Man Marries

Is a good time for him to open a bank account and start to save—if he has not already acquired that thrift and saving habit that he is bound to cultivate if he expects to make a real success of his life . . . . .

It is Important

That he make a wise selection of the bank to which he intends to entrust his funds. He also wants to form a connection with a bank that will carry him over the hard times that come to the best of us, and he desires a bank that will consider his personality as well as his tangible securities.

Such a Bank is Ours

We always stand ready and willing to help our customers. We feel that the prosperity of this community is our prosperity We want to help business; we are always eager to render service. No matter what your financial problems may be, let us help you solve them. This bank is often in position to give just that assistance that "turns the tide." Come in and let's talk it over.

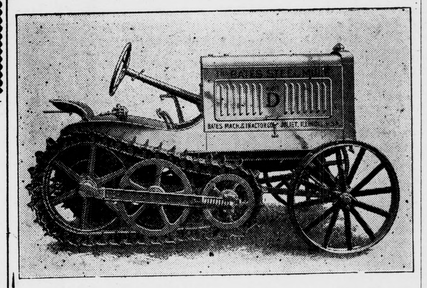
Every Inch of the Bates Steel Mule is Thoroughbred



The United States government by means of the Department of Agriculture, has been looking into the tractor question, and its bulletins clearly proves that the satisfied tractor owner—men who say that the tractor has paid—are men who own the BETTER CLASS of tractors. The successful man has learned years ago that he can't get something for nothing. No one can. The reason the BATES STEEL MULE costs more is that it is worth more. Skilled factory procedure, quantity production and the most modern Machinery enables us to save money at every turn, yet the BATES STEEL MULE cost slightly more in the beginning to build but considerably less in the long run to own. It's just another case where a seemingly higher priced article is far cheapest to own when you come to actually USE it.

The Bates thoroughbred quality comes not from mere claims, but from what's put into it. Every part that goes to make up the BATES STEEL Mule is put there by long field experience. There isn't a part that isn't time-tried and tested. There isn't a part that experience has'nt dictated the shape and size of; and in it all there isn't one superfluous part, nor one part that isn't capable of standing up under twice the strain it gets in actual use. These are things experience and practice have distracted The BATES comes to you as a fulfillment of your desire for a tractor that will endure. Price is what we pay for a thing. Value is what we get out of it. Consider your tractor from what you will get out of it, consider how many working days you have when the ground is wet, consider the operations where you can not afford to pack your seed bed, and consider how constantly and economically they must be performed even in rush times, you will then see why the BATES STEEL MULE is the biggest value offerd in any tractor on the American market today.
